3. The rejection of claims 16-19 under 35 U.S.C. 112, second paragraph is withdrawn due to applicant's amended claim 16.
4. The rejection of claims 1-2, 5, 9-11, 13-15, 20-21 and 23-29 under 35 U.S.C. 102(b) as being anticipated by GB 2,284,786 is withdrawn due to applicant's amended claim 1 and argument.

6. The rejection of claims 1, 12 and 22 under 35 U.S.C. 103(a) as being unpatentable over GB 2,284,786 in view of Tanzer et al., U.S. Patent Number 5,853,403 is withdrawn due to applicant's amended claim 1 and argument.

Claim Rejections - 35 USC § 112

7. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 1-15 and 20-29 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter, which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The specification does not implicitly disclose that the plurality of voids extend in a cross machine direction of the composite material.

Allowable Subject Matter

8. Claims 16-19 allowed. The prior art does not provide for a composite material, comprising: a first layer forming a plurality of apertures; and a substructure bonded to the first layer at a plurality of bonding locations to form a plurality of compartments, the first layer apertures forming fluid communication between the first and the substructure and the compartments entrapping particles contained within a fluid which passes. Additionally, the prior art does not provide a suggestion or modification to make the instant invention.

Response to Arguments

9. Applicant's arguments with respect to claims 1-15 and 20-29 have been considered but are moot in view of the new ground(s) of rejection.

10. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
